## Bee Venom Mask Offers Alternative to Botox

### Beauty Alternatives

[Female First](#), 1/15/2009

It seems that people are willing to go to any length nowadays to look younger and like their favourite celebrities. With more people than ever heading under the knife, we have seeked out the latest alternatives to plastic surgery.

Here at FemaleFirst we think that no-one should be fooled by the glamorised and celebrity endorsed culture of cosmetic surgery. Plastic surgery is full of risks and even the simplest of procedures can go wrong. So, avoid the pain and price in the pursuit of a A-list body, with our tried and tested alternatives...

... we have an all-natural alternative to botox with the [Bee Venom Mask by Heaven Skincare](#). The mask contains bee venom and manuka honey which gently firms, smoothes and plumps the skin. At just £55 it is a lot cheaper than a series of botox injections.

The mask uses only natural and organic ingredients, which are combined to work in synergy for an instant anti-ageing effect. Manuka Honey in the mask is renowned for its soothing and healing properties, it also contains **Bee Venom which works to control the facial muscles for immediate lifting, tightening and firming**. Just apply the mask daily and leave on for 20 minutes before washing off to get instant younger and smoother skin to rival Madonna.
